Helping Nature Manage Her Domain

Each year millions of tiny tree seeds wing their way to earth. Many find a foothold and produce roots. But, as young saplings, they meet almost overwhelming odds to reach maturity unless old trees in overcrowded forests are harvested regularly. By logging, we help Nature maintain the balance needed for forest perpetuation.

As a result, a great many products such as lumber, newsprint, kraft paper, corrugated cartons, folding boxes, wrapping paper, cardboard displays, and others, spring to life in our plants. Taxes paid to Arizona from income help support this wonderful school you are privileged to attend.

Congratulations, Seniors!

This is a hard hat to earn. Wear it proudly. And after you've laid it aside, be sure to keep in mind the things you've learned that made it possible for you to wear your cap and gown — diligence, hard work, studiousness and keeping a goal always before you. Remember these and you'll wear hats that are much harder to earn in life.

Son of an All-American lineman

This rugged little guy is dreaming of the day he'll play right guard on a high school football team . . . like his dad did before him.

His dad is still a lineman today, but instead of "digging in" on goal line stands, he's the kind of a lineman that "belts in" on electric power poles.

He's an All-American, too, in our books . . . working for All-American people like you. Because of our linemen . . . and all the other people on your Electric Cooperative team, you can count on dependable electric service . . . day in and night out.
